Summary

Experienced React Frontend Developer specializing in creating dynamic and responsive web applications. Skilled in utilizing JavaScript and ReactJS to design and enhance user interfaces. Proven team player with a history of delivering top-notch projects. Excels in problem-solving, consistently providing innovative solutions to improve performance. Committed to staying updated on the latest web development trends. Eager to contribute my skills to dynamic and forward-thinking teams.

Experience

Frontend Developer
OSOSS™

Jun 2023 - Nov 2023 (6 months)
- Collaborate with cross-functional teams to analyze and understand requirements for the ERP system.
- Design and implement new features and enhancements in accordance with project specifications.
- Develop and maintain responsive and user-friendly interfaces using React.
- Troubleshoot, debug, and optimize existing features to ensure optimal performance.
- Work closely with UX/UI designers to create visually appealing and intuitive interfaces.
- Participate in code reviews to maintain code quality and ensure adherence to coding standards.
- Stay updated on emerging technologies and industry best practices to continuously improve the development process.
- Contribute to the agile development process, including sprint planning, daily stand-ups, and sprint reviews.
- Collaborate with backend developers to integrate frontend components with server-side logic.

Frontend Developer
Perla Tech

May 2023 - May 2023 (1 month)
- Served as a Front-end Developer at Perla Tech, specializing in the development and enhancement of user interfaces for various websites.
- Collaborated with a multidisciplinary team to analyze project requirements and ensure efficient implementation according to established standards.
- Designed and implemented responsive user interfaces using advanced technologies, including React and other modern tools.
- Improved user experience by addressing errors and optimizing performance to ensure smooth interaction.

Frontend Developer
Future Code

Sep 2022 - Apr 2023 (8 months)

- Contributed as a Front-end Developer at Future Code, specializing in React, where I worked on various projects, including websites and dashboards.
- Developed and maintained multiple projects, demonstrating proficiency in advanced technologies such as Redux, and Redux Toolkit.
- Collaborated closely with cross-functional teams to analyze project requirements and implement effective solutions.
- Successfully delivered a range of web applications, ensuring high-quality user interfaces and experiences.
- Utilized advanced Front-end frameworks and libraries, including Material-UI (MUI), to enhance the visual appeal and functionality of applications.
